Health Center

The health center is located on the ground floor of the on-campus residence hall.

It is open every day except weekends and school holidays:

From Monday to Thursday: 8 am – 4 pm
Friday: 8 am – 3.30 pm

Phone numbers: 04 72 18 64 01 or 06 72 15 74 78

Ms Catherine Giraud, nurse, is in charge of:

- Reception
- Handling emergencies
- Straightforward care, applying and removing bandages
- Injections prescribed by your doctor
- Referrals to specialised medical facilities
- Responding to your request for information or interview
- Training or first-aid procedures (PSC1)

Mr Bussiere, the in-house doctor, performs screening and prevention duties for the newly-arrived students from 9 am to 1 pm.

Do not hesitate to contact him if you feel the need.

Marie De Rocquigny du Fayel, the college psychologist, is available on Wednesdays from 1 pm to 7 pm.

She meets the students by appointment made previously at the health Centre.

For any social, administrative, financial, or family issue, you can contact the CROUS social services and meet with a social worker.

During the first quarter, 3 sessions are organized by the CROUS social services.

You will informed by email about the dates and times and you will be able to make an appointment at the health center.

In exceptional circumstances, a nurse can deliver a medical certificate to be handed over to the Registrar’s office to justify an absence from a compulsory 2-hour period. The student must come to the Health Centre during the period concerned so that the nurse can perform an examination, provide medical advice, and deliver the certificate if the absence is justified.
For an absence longer than 2 hours, the student must obtain a medical certificate from a doctor and forward it to the Registrar’s office.

The nurse can lend equipment (crutches or elevator badges). The equipment must be brought back to the Health Centre as soon as its use is no longer required. If the equipment is not returned, it will be charged to the student’s account. The equipment may not be handed over to another student without prior consent of the Health Centre.

In case of an emergency outside opening hours:

- Inform the lodge.
- Use the red phones located on each floor to reach the emergency services.
- 5 automated external defibrillators (AEDs) are at your disposal: at the lodge, at the residence hall, in buildings H9 and H10, and at the gym.

You must bring to the health center:

- 1 completed medical form.
- 1 photocopy of your vaccination record card (foreign students must also provide a medical certificate written in English listing all vaccinations since birth)

**WELCOME FOR THIS NEW SCHOOL YEAR – KEEP FIT AND HEALTHY**
